

FunSand Meets And Surpasses All Phthalates Content Safety Standards Set Forth By The Consumer Products Safety Commission (CPSC) As Of February 10, 2009.

As of February 10, 2009 the Consumer Products Safety Commission (CPSC) has mandated that consumer products intended for children 12 and under cannot contain Phthalate levels greater than .1% (one-tenth of 1%) in any accessible part. FunSand not only meets this requirement, it vastly exceeds this requirement making FunSand one of the safest consumer products with regard to Phthalate levels. All FunSand products have tested at less than .02% (two one-hundredths of 1%) making them virtually Phthalate-free.

Below are test results for Phthalate levels as performed by an independent testing laboratory.

LABORATORY REPORT

Thor Works Industries
2520 South Campbell St
Sandusky OH 44870

Additional Request Date: 02/13/09
Previous Lab ID #: H-0726-27
Report Date: 02/19/09

SAMPLE ID	LAB ID	ANALYSIS	RESULT	DUPLICATE RESULTS
Purple Fun Sand	H-1556	di(2-ethylhexyl)phthalate	<0.02 %	<0.02 ** %
		dibutyl phthalate	<0.02 %	<0.02 ** %
		benzyl butyl phthalate	<0.02 %	<0.02 ** %
		diisononyl phthalate	*	
		diisodecyl phthalate	<0.02 %	<0.02 ** %
		di-n-octyl phthalate	*	
Blue Fun Sand	H-1557	di(2-ethylhexyl)phthalate	<0.02 %	
		dibutyl phthalate	<0.02 %	
		benzyl butyl phthalate	<0.02 %	
		diisononyl phthalate	*	
		diisodecyl phthalate	<0.02 %	
		di-n-octyl phthalate	*	

TECHNICAL INFORMATION

* Diisononyl phthalate and di-n-octyl-phthalate could not be separated chromatographically. The total of these two phthalate esters is <0.02%.

QUALITY ASSURANCE INFORMATION

** Duplicate analyses were performed as part of our internal Quality Control Program. There is no additional charge for duplicate values.
